

Machine Operator – Greensboro, NC

Would you like to be part of cutting-edge technology in the field of coating/finishing aerospace, automotive, and industrial components? Is being part of a team that makes an impact in a variety of manufacturing industries important to you? If so, a role as a Machine Operator might be the right fit for you!

IHI Ionbond is an innovative and growing industrial service company specializing in surface preparation and commercial coatings. Some of the customer-owned products we work with include parts for the aerospace and automotive industries. It is a great time to join Ionbond as we are growing in an exciting field!

As a Machine Operator, you will be able to perform expertly and consistently pre-coat and post-coat functions to the prescribed methods and process paths to optimize coatings quality and production throughput in a fast-paced work environment.

Ionbond – The Surface Engineers™

Ionbond is a global, yet local acting, company where we work in a technical innovative environment. Our employees make a difference for companies in medical, automotive, aerospace and decorative industries with providing thin-film coating services. We operate 37 coating centers in 16 countries over 3 continents. Our coatings are used to improve durability, quality, functionality, efficiency and aesthetics of tools and components. Ionbond is a global leader in PVD, CVD and PACVD coating technologies.

What defines this job?

- Perform assigned functions, processes, and procedures that meet customer orders specifications, quality requirements, and production standards
- Work with supervisors and staff to operate and closely monitor high-vacuum PVD coating chambers
- Conduct periodical checks ensuring the machine and process is running correctly
- Load and unload customer products into machines while handling parts with care
- Perform general maintenance and clean interior of coating machines
- De-fixture batch loads after processing
- Carry out visual inspection on parts after processing

What do we offer?

Our employees are our single most valuable assets! We strive to make Ionbond a great place to work including:

- International and local growth opportunities
- Diverse work environment where we embrace teamwork and innovation that drives us towards new applications and customer service excellence
- Competitive compensation package; salary based on experience and educational credentials
- Medical & dental benefits with affordable premiums and annual deductibles
- Flexible spending accounts (medical and dependent care)
- Life insurance
- Short-term & long-term disability
- Employee assistance program
- Generous Paid Time Off
- Tuition Reimbursement
- 401k Safe Harbor Retirement Account plus company match

What do we ask?

Previous experienced in Manufacturing or other related field. (3+ years preferred.) Mechanical, Electrical + Troubleshooting experience a plus! Familiarity with machine operation, manufacturing tools and equipment. Strong critical thinking skills. Ability to communicate effectively. Able to thrive in a fast-paced environment.
